

Code of Conduct

(Extended House Rules)

Test Conditions

A negative test result, that is not older than 48 hours (PCR) or 24 hours (antigen rapid test) must be presented prior to arrival. According to the state ordinance, the previously required test on the third day (after 72 hours) after arrival is not applicable. In accordance with house rules, we still ask you to submit negative tests (every 72 hours) during your stay. Thank you.

Fully vaccinated guests (two vaccinations and at least 14 days after the second vaccination) and those who have recovered from Covid 19 do not have to present a negative test result. Evidence of vaccination or recovery (positive PCR test result that was at least 28 days ago and not older than 6 months) is sufficient. Guests who are exempt from the obligation to test but have symptoms typical of corona must then also present a negative test result in this case. All information can also be found on the website of the State of Schleswig-Holstein.
